

Black Rock Ellsworth Issues Discussed (11/12/2009)			
	<b>Issue</b>	<b>Meeting Response</b>	<b>Follow-Up.</b>
1	Parking Issues-	Parking wasn't part of Phase 1 program. Will get meeting with Police Chief.	
2	No. of fields has increased over the years leading to over-use.	We recognized that in Master Plan and are attempting attempting to make people aware of all the other parks in City	
3	Suggestion of bleachers and solar panels.		We can look at both.
4	Too much noise.		Police enforcement
5	Signage that prohibited dogs, alcohol and gold has been removed.	It will be replaced	
6	Splash park concerns.	It will at least be an add alternate so that it may be removed.	
7	Suggestion of One Way Street with diagonal parking	Previous studies suggested it wouldn't noticeably increase.	We will have City Engineer re-visit.
8	Why does building have to be so big? Reduce size.	Toilet rooms, hcap accessible. Storage close to work thus increasing city personnel productivity.	Need to look at plan to reduce.
9	Why doesn't building fit more into historic character?	Needs to be durable to last long time.	We will look at further detailing, size reduction.
10	Why can't use other areas to share parking , i.e. St Ann's.	Many community's are trying to do that to reduce impermeable surface.	We will explore.
11	Need to decrease police response time.	Will arrange meeting with Police Chief	I will contact Auden Grogins.
12	Need to meet the needs of the community as a whole as opposed to just the little league.	That's why we used the NRZ Program	Verify NRZ program
13	Why is there security lighting? Get rid of it.	Only shown at entrances	Set on timers and will relook on removing
14	Is there a way to block off the street during little league times?	It's a public row. Doubt we can do that.	More police enforcement.
15	Create a "non-building" i.e. with berms etc and depress building footprint to hide.	Issues with grade changes make it difficult to do	

Black Rock Ellsworth Issues Discussed (11/12/2009)			
	<b>Issue</b>	<b>Meeting Response</b>	<b>Follow-Up.</b>
16	Move storage to the back of the site, closer to boat yard.		Can look at.
17	Have lighting go off at 11 pm.	We can look at that.	
18	Boatyard is beginning to intrude onto park space.	WE will look at.	Planning and Zoning Issue.
19	Building is ugly, make it more appropriate to the historic area.	We can look at detail changes and perhaps reduce bulk.	
20	Why cant building be moved.	Sewer connections and setbacks necessitate general location	Can we use waterless toilets etc and hide building more with foliage.
21	Why is there only one toilet per bathroom?	To reduce maintenance cost
